www.ortax.org
Scope of Services

Ortax can assist your company in conducting rights and fulfillment of corporate obligations, including: Tax Administration and Compliance, Tax Review, Tax Advisory and Research, Tax Audit and Litigation and Accounting Support in efforts to obtain maximum tax efficiency.

Tax Administration and compliance

Monthly or annual tax return for corporate/personal income tax, Withholding Income Tax and Value Added Tax. We also provide Registration/Deregistration Tax ID, tax Clearance and other services regarding tax administration.

Tax Review

To ensure the accuracy in the implementation of tax obligations in accordance with prevailing tax regulations. Identifying process to define potential tax exposures and providing recommendations.

Tax Advisory and Research

Build strategic argumentation and justification related a tax treatment. Help your business define the entity’s tax position to obtain maximum tax efficiency.

Tax Audit and Litigation

Assisting and representing your company in the event of tax audit performed by tax authorities, tax verification, tax objection, cancellation or correction of tax assessment, reduction of tax penalties, tax appeal and reconsideration to Supreme Court.

Accounting Support

Assist your Accounting support, designing the system most suited to your company, prepare your financial statement or other accounting reports.

Comprehensive tax management is become essential in order to optimize tax efficiency. Tax Management related tax obligations is intended to anticipate any potential tax penalties associated with mistakes and negligence. Further the tax management of the taxpayer’s rights is intended to optimize the utilization of our rights to achieve tax efficiency.
Payroll and PPh 21 Services

Scope of Services

Our Professional team can assist you to review your Income Tax Article (PPh 21) calculation, performing analysis and provide professional tax advice so that the obligation can run effectively in accordance with the company’s character and condition. Our Payroll and PPh 21 Services includes:

- Calculate PPh 21 for permanent or non permanent employee
- Calculate take home pay and provide Tax Slip Salary (access via our platform)
- Regularly report the monthly tax return for PPh 21 (using eSPT and tax filling)
- Providing worksheet of Payroll and PPh 21 calculation for company documentation

Calculation of PPh 21 which is not appropriate and not in accordance with the regulations may cause high compliance cost and of course potential tax sanctions. To avoid that, a comprehensive management of PPh 21 obligation are necessarily required.
Scope of Services

Our Tax Specialists have extensive experience in preparation of TP Doc and Benchmarking Studies for commercial, financial, and intangibles transactions of all kinds. Our Transfer Pricing services includes:

- **Transfer Pricing Documentation**
  Preparation of Master File, Local File, and/ or Country-by-Country Report (CbCR). For that purposes, Our scope of work are Data Gathering (documents and related information to prepare Master File and Local File), Company and Industry Analysis, including Functional Analysis and Application of the Arm’s Length Principle.

- **Benchmarking Study**
  Companies that perform similar activities as the “tested party” and (ii) establishing the arm’s length profits of the “tested party” by reference to the profitability of the companies that perform similar activities in terms of functions performed, assets employed, and risks taken.

> For Benchmarking Study, we are using commercial databases. We rely on Oriana, KtMine and CUFTanalytics database, provided by Bureau van Dijk.

> Robust transfer pricing documentation is a prerequisite to represent strong arguments and reduce dispute with tax authorities.
Scope of Services

Our professional team may assist you to create a Tax Manual and Standard Operating Procedures (SOP) on taxation. In general, Tax Manual or SOP are prepared especially for company’s ‘good corporate governance’ in tax aspect, and also to:

- Ensure the tax implications of company’s transaction or a new product has been analyzed to prior a contract/agreement is signed or a new product is launched;
- To be a tax cost efficiency indicator by minimizing the company’s losses resulted from any faulty in the implementation of tax regulations;
- Provide guidelines for the implementation of tax compliance accurately, timely and in accordance with prevailing tax regulations;
- Formalize the documents filling method relating to the fulfillment of tax obligations.

Tax Manual or Tax SOP prepared by our professional team will be packed both in printing and in an integrated software which is easy to understand and easy to be implemented by the company’s staffs.

Our SOP software is facilitated with tax regulations database so that the Company’s Tax Staffs can easily access the all tax regulations contained in Company’s Tax Manual and SOP.

“When the company’s organization becomes larger, policies and implementation of tax management become more complicated. It is time for the Company to no longer rely on to personnels. Gradually, reliance to person shift into reliance to system.”
Highlight

Indonesia has come a long way in improving its tax system over the last decade, both in terms of revenues raised and administrative efficiency. The business world must accept the facts amid the growing concern of the Government towards “Tax Revenue” so that carrying out obligations properly has become a necessity.

Not only do the duties properly, but also must be effective and efficient and have the ability to answer and reconstruct arguments when questioned by Tax Authorities.

Therefore, staff and tax practitioners who help the Company related to Tax Obligations are required to have Tax knowledge both conceptually and practically, one of which can be obtained through Taxation Training organized by Ortax.

What types of training do we offer:

- **Reguler Training**
  Ortax offers a wide selection of tax training topics from introductory to advanced level.

- **Inhouse Training**
  Ortax provides cost effective, tailored solutions for the specific needs of your organization.

- **Video Training**
  Ortax provides video training (video on demand) and can be accessed anytime-anywhere from our platform.

Reguler Training and In-House Training can be done online or offline (in class-room).
Highlight

Businesses must innovate and identify more efficient ways of meeting the ever-expanding needs of today, while also tackling tomorrow’s challenges. Obviously, technology is the answer. In tax perspective, the right technology platforms can help us to reduce administration cost, reduce resources, improve process and data control, enable better planning and strategy development.

Our Technology Solutions:

- eFilling
- eBilling
- eFaktur Host to Host (H2H)
- e-Bupot
- e-Registrasi
- VSWP
- e-SPT

ortax can help your business to creating efficiencies using our technology, which will reduce effort and streamline compliance processes...
